DETERMINED

Marlena Lopez

Profession: Veterinary Student

Instagram Handle: @veterinary_adventures

“Veterinarians face difficult challenges on a daily basis, but remain determined to provide the best care for their patients. Improving the welfare of one animal may not dramatically change the world, but it means the world to that animal and its family. Students encounter an array of obstacles along the way to becoming a veterinarian; a highly competitive admissions process, a difficult study load, and acquiring a large amount of debt. However they remain determined because it is all worth it when you are given the opportunity to save and improve animal's lives every day.”

AUTHENTIC

Deanna Saavedra

Profession: Licensed Vocational Nurse

Instagram Handle: @deannarazel

"As a nurse, being authentic in my work allows me to build meaningful connections with my patients. Having genuine, honest interactions with them helps me to develop a trusting relationship in which I can be more aware and sensitive to their needs. It's more than simply following the doctor's orders. It involves caring for every aspect of my patient's life and overall well-being, whether physically, emotionally, spiritually, or whatever the case may be. Authenticity is what helps me to build close connections, and make a lasting impact on the lives I care for."

Profession: Veterinarian

“A veterinary career is definitely challenging; intellectually, emotionally, physically and even morally. Every day presents new challenges which can't be predicted, and must often be navigated under a high degree of stress and time pressure. Challenging ourselves and pushing out of our comfort zone can be difficult and sometimes we will fail, but it is the only way we can improve as vets and be better able to help our patients.”

Alessandra Lopez

Profession: Oncology Nurse

“Often times we have no control over our circumstances, but we do have control over the way we respond to what’s happening around us. Our power lies within our perspective! A positive attitude makes the world of difference in not only one's own life, but can also help shape the work environment and mostly importantly the patient experience. Smiles are powerfully contagious and effective in lifting spirits and for this reason I’m sure to never leave home without one.”

Made to Matter

HOW TO MEASURE

Take all measurements over undergarments using standard measuring tape held in a relaxed straight line.

Chest: Place measuring tape under the arms to measure the distance around the shoulder blades and the fullest part of the bust/chest. Do not hold the tape too tight.

Waist: Place measuring tape around the natural waistline.

Low Hip: Stand with feet a few inches apart and measure around the fullest part of your hips wearing your undergarments.

Inseam: Measure from the crotch to the desired length of the pant, breaking at the top of the shoe and just above the heel in the back. Appropriate shoes should be worn.
